Random Codes

EXTRA CODES SERVICE

OVERVIEW

We cater to **generating Extra Unique Random Codes;**

- Codes to be 100% Unique to all your previous orders

WHAT WE DO - EXTRA CODES

- Preparation of previous codes
    - Keep a Master Database with all previous codes.
- Generate New Codes
    - Remove duplicates by compare new codes to previous Master Database, resulting in 100% unique codes.
    - Apply our quality filtering
    - File Batching - export codes to multiple files per your specifications.
- Backup
    - We keep multiple backups of all your codes.
- Search Requests

WHY DO EXTRA CODES ORDERS COST MORE?

Essentially the process is more complicated, increase of stringent testing and validation, where it requires;

- Extra data storage
- Extra server resources
- Extra labor
- Extra time

Detailed points to consider when we process your Extra Codes request:

- Requires preparation of previous data
    - We require all your previous codes delivered to us so that we may compile into a database.
- Data Management
    - Your Master Database grows over time.
    - We keep backups of all your orders, including the master codes database.
- Each extra codes order is more difficult that the previous.

Random Codes

o   More orders means growing Master Database.

SEARCH REQUESTS

As a bonus service to you, we accept requests to search throughout your codes database for codes. Send us a list of codes that you require matching.

Currently this is a free bonus service.

QUERIES OR THOUGHTS?

Feel free to contact us with any queries. We would be happy to speak to you.
