

ADVANCED BATCHING OF CODES

BATCHES OF CODES BASED ON [CLIENT ID, QTY CODES]

BENEFITS

This streamlines the codes distribution and allocation process.

This enables you to send codes to correct clients.

This enables you to link a winning code back to a client.

CASE SCENARIO

250 Coffee shops around the country are to be supplied with printed marketing cards, each with a different unique code. Winners need to be matched back to the correct location (Client ID).
