

## QUALITY FEATURES

Quality features applicable to all RandomCodes.com orders:

- 100% Unique & Quality Checked
  - We visually check the produced codes before delivery.
- Non-Sequential
  - Guaranteed that no code will be sequential to another code
- Real Random
  - Non-sequential, no set algorithm, non reversible.
- Code Separation
  - We guarantee the codes will be separate from one another. There will never be consecutive codes, and far from it.
- Repeat Character Filter [new]
  - For instance, the code "R4444XCZ" would be filtered out, removed for having too many repeat characters. This helps your Promotional marketing look more Professional to the end user.
- No Leading 0's
  - Excel and other applications have a flaw where they automatically format some codes as numbers without asking the user. No Leading Zeros avoids this issue.
- Words Prevention
  - Words are prevented by excluding codes with A E I O U 1 0
- Emergency Service
  - In an emergency, you may require codes produced fast, we understand. Upon request we can produce the order very fast, ~24 hour turnaround.
- Money Back Guarantee
  - Just explain your reasons to us and we will reverse the payments made to us.
- CSV Portable and Compatible
  - Universally standard Text file compatible with many systems and applications. Most importantly, accepted by Printing industry.
  - Text only CSV
  - Pure ASCII text.
  - Be confident your Printers accept the CSV/Text files we produce. Our files have gone through rigorous real world testing, the files are supported by all systems and machinery.
- Prefix and Postfix/Suffix
  - Codes may have Prefix and Suffix
- Multi Batch
  - One order may be sliced up into multiple files, batches of codes.
  - You supply us with a list of; Filenames and Code Quantities
  - Incurs additional costs for file batching service.

*Superior Quality Unique Random Codes Supplied Direct to Companies;  
Unique Codes for Marketing, Promotion & Printing*

## EXTRA CODES

However challenging, we do cater for generating *Extra Unique Random Codes*;

- to be added to a previous ordered batch of codes,
- or, to be unique to previous order(s).

Please note, this type of request is quite a task that requires a good deal of extra work and incurs extra costs.

## CHALLENGE US

- We also cater for custom challenging jobs. Combinations of the above features may be applied to create large complicated set of unique random code batches.
